Description

50 Huntly Street is an imposing and historic, traditional granite building, constructed in the mid 19th Century and designed by John Smith – City Architect. More recently, the building has been transformed for office use. The entire building has recently undergone a comprehensive refurbishment to provide modern open plan accommodation. Specification includes a full overhaul of HVAC systems, new floor coverings, full redecoration and new LED lighting.

The refurbished space can be offered as Cat A or alternatively the landlord can work with an occupier to deliver a Cat B turnkey fit out and / or plug and play option.

Following recent successful lettings, the available accommodation is on Level 1. This floor benefits from windows on both the north and south elevation, therefore benefiting from good levels of natural daylight.

Any occupier located on Level 1 can make use of an attractive meet and greet area on the ground floor next to the main entrance door. There is also further break out space located within Level 1.

Additionally, the property benefits from lift access to each floor, accessible WC's located throughout, designated male and female WC's and shower facilities.
